## EQUIPMENT LINE CARD

### Burger and Brown Engineering ([www.greaselessconcepts.com](http://www.greaselessconcepts.com))

- *Smartline*™ Greaseless Mold Alignment Systems that replace lubricated Stack Mold Support Systems.
- Prevents mold and component wear, improves cycle times, can be used for single face molds.

### Dynamic Conveyor Corp. ([www.dynamicconveyor.com](http://www.dynamicconveyor.com))

- The manufacturer of **Dynacon Modular Conveyor Systems**. Conveyor modules can be reconfigured to meet changing production needs. Horizontal, incline, radius turn, and horizontal to incline conveyors available in any size or width, all with a **5-year** warranty. Custom designed systems for challenging applications.

### Gammaflux, Inc. ([www.gammaflux.com](http://www.gammaflux.com))

- **Hot Runner Temperature Control Systems** for advanced control of demanding applications, 2-600 Zones. Many advanced features including real time resistance monitoring, power priority and Triangulated Control Technology™. Accurate and controllable to 0.1° F.
- LEC Hot Runner Temperature Control Systems, 2-24 zones, competitively priced.
- TTC Hot Runner Temperature Control Systems, 20-600 Zones with advanced user interface.

### Toyo Machinery & Metal Co. / Maruka USA ([www.marukausa.com](http://www.marukausa.com))

- A Leader in high performance **Electric and Hydraulic Molding Machines** from 35-750 tons and all electric rotary table vertical clamp molding machines 45-150 tons.
- NEW - **Toyo Si-IV High Speed Electric Molding Machines** increase productivity and lower energy costs.

### Westland Corporation ([www.westlandusa.com](http://www.westlandusa.com))

- Specialists in the design and manufacture of high performance **Screw & Barrel Products** and custom components for the Plastics Industry including the **Eagle® Mixing Screw**.
- NEW - **The Eagle® Mixing Nozzle** utilizes both dispersive and distributive mixing with minimal pressure drop, and rapid conveying rate. A cost-effective and readily available solution for short run color mixing issues.

### Wittmann, Inc ([www.wittmann-ct.com](http://www.wittmann-ct.com))

- Automation & Auxiliaries for Plastics Processing
- **Robots** - A world leader in all types of pneumatic and servo robots, featuring high speed operation and a robust proven design. Advanced control system, custom end of arm tooling and full system integration capabilities. ([See more at wittmann-ct.com](http://www.wittmann-ct.com))
- **Water Temperature Controllers** - Innovative and compact designs featuring all non-ferrous construction, vacuum circuit and mold purge capability, with a water temperature range of up to 320 F degrees. ([See more at wittmann-ct.com](http://www.wittmann-ct.com))
- **Dryers** - Drymax compact and central dryers with advanced energy efficient technology, integrated loading systems, material protection features and automatic air and temperature distribution on Silmax central drying hoppers. ([See more at wittmann-ct.com](http://www.wittmann-ct.com))
- **Conveying and Blending** - Feedmax single and central system material loaders and controls. Fully integrated systems including on-machine or central bending, distributed control technology, systems engineering and full installation services available. ([See more at wittmann-ct.com](http://www.wittmann-ct.com))
- **Granulators** - Complete product line from Low Speed Screenless units for robot feed applications to large central granulators. Features include tangential feed cutting chambers and pre-adjustable knives for maintaining excellent and uniform regrind during the lifetime of the unit. ([See more at wittmann-ct.com](http://www.wittmann-ct.com))
