

Ejector Sleeves

Plastixs Ejector Sleeves are nitrided on the inner diameter and the outer diameter for smooth performance with standard Ejector Pins or Through-hardened pins. They are made of H-13 material with a core hardness of 40-45 Rc. Their surface hardness is nitrided ID/OD to 65-75 Rc; concentric ID to OD is 0.002" TIR and the surface finish is 4-5 micron.
