

UNIVEST® STRAPS & BUCKLES

UniVest® Straps & Buckles are resistant to most chemicals and can withstand temperatures up to 1000°F. The strength and flexibility of the nickel steel roller buckles allow for an easy adjustment or added extension, to provide a secure fit.

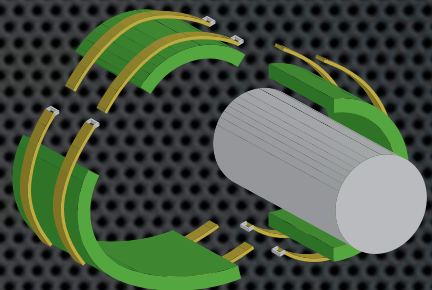

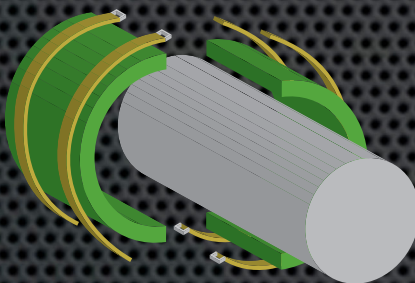

Straps & Buckles provide added versatility for UniVest® Insulation Jackets and Throw Blankets. Straps & Buckles can be used to:

1. Extend the reach of a UniVest® Insulation Jacket

2. Daisy chain multiple UniVest® Insulation Jackets together

3. Fasten UniVest® Throw Blankets to any surface for added stability
