

TECHNICAL DATA SHEET

Econo-Purge Purging Compound 473-45, 473-1500

Product Description

Econo-Purge quickly, economically and effectively removes old resin and color residue in extrusion, injection and blow molding operations. With operating temperatures of 330° - 610°F, Econo-Purge also works on hot runners and thoroughly purges manifolds with gates as small as 30 thousandths. Compared to competitive compounds, Econo-Purge emits little if any odor during purging.

Applications

Purging Compound

Unit Package Description

48 and 1,570 pound boxes

Generic Description

Purging Compound

Net Weight Fill

45 & 1,500 pounds

UPC Code

858799000684

Units Per Case

multiple sizes

Case Weight (lbs)

45 / 1,500

Appearance

Resin Pellet

Flash Point F

>750 degrees

Flash Point C

>400 degrees

Base Type

Resin

Evaporation Rate
