

AIRTECT - Plastic Leak Alarm System

#1 Plastic Leak Alarm System - Early Detection is the Solution!

Nozzle and hot runner mold protection up to 32 sensor locations with early detection of plastic leakage, fast ROI and 24-hr peace of mind!

Stainless Steel & Aluminum Manifold Assemblies

Designed and Built to Your Specifications

Expertly assembled using the highest quality components from SMARTFLOW[®]. Standard and custom sizes available.

[VIEW MORE >>](#)

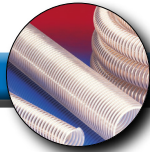

HiTemp Manifold & Hose Assemblies

Fully Integrated to Fit Your Application

Oil to 600°F or Water to 450°F. Turn-key manifold and hose assemblies. Designed and engineered to fit your high temperature applications.

[VIEW MORE >>](#)

HiTemp /High Wear Hoses from NORRES

Durable Industrial Conveying Hoses

Full line Norres distributor, featuring polyurethane, anti-static, food grade, high temperature, high wear material conveying hoses.

[VIEW MORE >>](#)

X-PURE Water Supply System

Plastixs Design to Eliminate Contaminants & the Damage They Cause

Eliminates contaminants by supplying clean, distilled water for use in high-temperature water units that operate with water at 300°F-450°F.

[VIEW MORE >>](#)

Morris Couplings and Components

The Industry's Choice for Pneumatic & Vacuum Conveying Components

Full line Morris distributor, featuring compression & gripper couplings, pipe & tubing straights, bends, wyes, tees, laterals & more.

[VIEW MORE >>](#)

SMARTFLOW[®] Manifolds

Durable and High Quality Water Manifolds Made in the USA

Increase cooling efficiency and speed cycles by providing ample water supply to cooling processes. Aluminum and stainless steel and standard and custom sizes available.

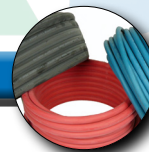

[VIEW MORE >>](#)

HiTemp EPDM Hose

High Temperature Industrial Water Hose

Ideal for high temperature water lines for molds up to +285°F (+140°C), 215 PSI. Available in 3/8", 1/2", & 3/4" ID sizes and in red, blue and black.

[VIEW MORE >>](#)

LinkedXValve[™] (US Patent 10,160,149 B2)

Plastixs Patented Valve Linkage System

Provides a single lever to operate both mold cooling supply and return lines simultaneously.

[VIEW MORE >>](#)

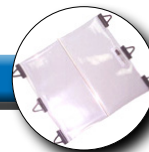

Moldshields[™]

Keep Parts off the Floor and Profits in Your Pocket

Crystal clear construction allows you to see into your mold and monitor parts in production. Kit includes 2 side curtains, hardware and magnets.

[VIEW MORE >>](#)

Date Code Inserts

Unique Design Provides Trouble-Free Indexing

Designed for rubber and silicone applications with the ability to withstand high temperatures, mold releases and reduce material flash.

[VIEW MORE >>](#)

Tigerflex Industrial Hoses

World-Leading Industrial Hoses Manufactured in the USA

Featuring PVC, urethane, rubber, food grade, anti-static, durable, flexible, long-lasting hoses that support a wide range of applications.

[VIEW MORE >>](#)

SLIDE[®] Mold Cleaners, Releases & More

High Quality & Specialized Products for Injection Molding, Extrusion & More

Optimize cycle times, eliminate part defects, minimize downtime, and eliminate profit-killing plastics processing obstacles with products by SLIDE[®].

[VIEW MORE >>](#)

SMARTFLOW[®] Flowmeters

Measure Flow Rate Effectively and Accurately

Mechanical and electronic flowmeters available with a number of options including thermometers, pressure gauges, liquid-filled pressure gauges and quick change socket and plug.
