

**Flex-Tube™** Flexaust introduces Flex-Tube™, an all-plastic vacuum hose with an ultra smooth interior for easy flow. The spiral-extruded engineered construction provides increased product performance.

	DIAMETER	LENGTH	TEMP RANGE	DESCRIPTION
<b>Flex-Tube™ PV</b>	4", 5", 6", 7", 8", 9", 10"	12', 25'	20° to 160°	Medium weight coextruded clear PVC with a rigid black PVC helix
<b>FEATURES</b>				
<ul style="list-style-type: none"> <li>• Ultra smooth interior</li> <li>• Very flexible</li> <li>• Economical</li> </ul>	<ul style="list-style-type: none"> <li>• Crush resistant</li> <li>• Helix acts as a wearstrip</li> <li>• Efficient airflow</li> </ul>	<ul style="list-style-type: none"> <li>• OEM lengths and colors available</li> <li>• Other diameters available upon request</li> </ul>		

<b>Flex-Tube™ PU</b>	4", 5", 6", 7", 8", 9", 10"	12', 25'	-40° to 200°	Medium weight coextruded clear thermoplastic ether based polyurethane with a rigid yellow ABS helix
<b>FEATURES</b>				
<ul style="list-style-type: none"> <li>• Ultra smooth interior</li> <li>• Great abrasion resistance</li> <li>• Very flexible</li> </ul>	<ul style="list-style-type: none"> <li>• Crush resistant</li> <li>• Puncture and tear resistant</li> <li>• Helix acts as a wearstrip</li> </ul>	<ul style="list-style-type: none"> <li>• Efficient airflow</li> <li>• OEM lengths and colors available</li> </ul>		

<b>Flex-Tube™ TR</b>	4", 5", 6", 7", 8", 10"	25'	-40° to 275°	Medium weight coextruded thermoplastic rubber with a rigid black polypropylene helix
<b>FEATURES</b>				
<ul style="list-style-type: none"> <li>• Ultra smooth interior</li> <li>• Very flexible</li> <li>• Tight bend radius</li> </ul>	<ul style="list-style-type: none"> <li>• Crush resistant</li> <li>• Helix acts as a wearstrip</li> <li>• Efficient airflow</li> </ul>	<ul style="list-style-type: none"> <li>• Moisture and chemical resistant</li> <li>• OEM lengths and colors available</li> <li>• Wide temperature range</li> </ul>
