

STAINLESS STEEL MANIFOLD ASSEMBLIES

Special Pressure Balanced Manifold Assembly with Flow Regulators for Telescope Cooling Application

Special Supply and Return Manifold Assemblies with Flow Regulation, Flow Sensing and 3-Way Valves for Laboratory Application

7-Foot Long Supply and Return Manifold Assemblies with Plug Valves for Semiconductor Equipment Application

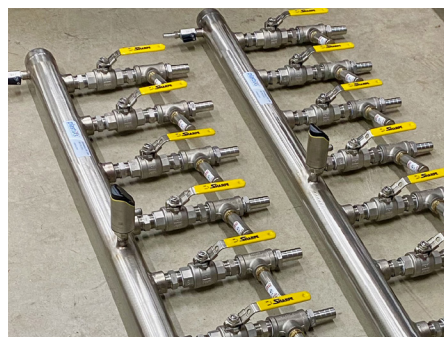

Large Return Manifold Assembly with Electronic Pressure Sensors, Pipe for Non-Contact Flowmeters, Needle Valves and Hammer Arrestors for Server Cooling Application

Inlet and Outlet Manifold Pair Assemblies for Main Water Supply Drops for a Plant Water System

Compact Manifold Assembly with LinkedXValve and Flowmeters on Return Manifold for Injection Molding Application

Large Supply Manifold Assemblies with Electronic Pressure Sensors, SS Valves, Hammer Arrestors and Drain Valves for Server Cooling Application

Tee Manifolds Awaiting Assembly for Brass Ball Valves. Application for Welding Gases for Car Manufacturer's Welding Robots (over 400 produced)

STAINLESS STEEL MANIFOLD ASSEMBLIES

Large Supply and Return Manifold Assemblies with Pipe Extensions on Return Manifold for Non-Contact Flowmeters for Laser Cooling Application

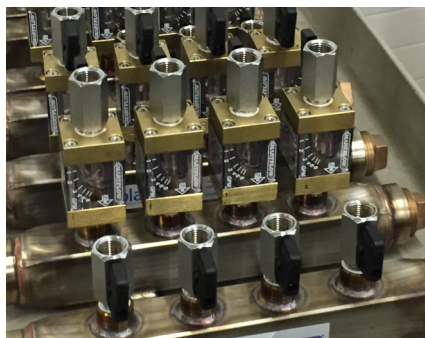

Supply and Return Manifold Assemblies with Electronic Display Flowmeters and Brass Flow Regulators for Injection Molding Application

Supply and Return Manifold Assemblies with Electronic and Mechanical Flowmeters and Brass Flow Regulators for Electronic Cooling Application

Wall Mounted Return Manifold Assembly with Mechanical Flowmeters and Brass Ball Valves for Laser Cooling Application

Supply and Return Manifold Pair Assemblies with Mini Ball Valves and Mechanical Flowmeters on the Return Side for Injection Molding Application

Dual Sided Supply Manifold Assembly with Ball Valves for Vacuum Chamber Application

2" High Flow Return Manifold Assembly with 3/4" Brass Flow Regulators, Mechanical Flowmeters with Temperature Gauges for Laboratory Application

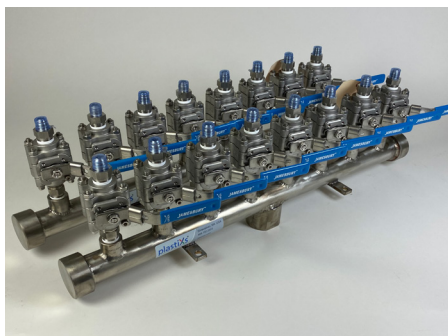

Compact Manifold Pair Assembly with Special Supply & Return Configuration for Injection Molding Application

STAINLESS STEEL MANIFOLD ASSEMBLIES

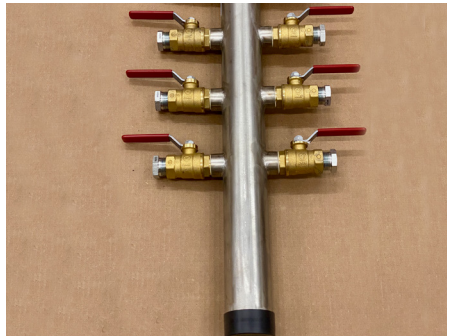

Xtreme HiTemp Stainless Steel Parallel Pair Manifold Assembly with End Port Connections and Special Slotted Mounting Bracket for Quick Change Capability

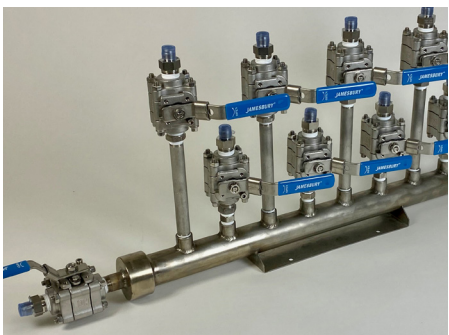

Xtreme HiTemp Stainless Steel Manifold Assembly with Center Port Connection

7-Foot Long Custom Stainless Steel Manifold Assembly with Mini Ball Valves and Push-to-Connect Fittings for Cooling Multiple Drives in Additive Manufacturing Equipment

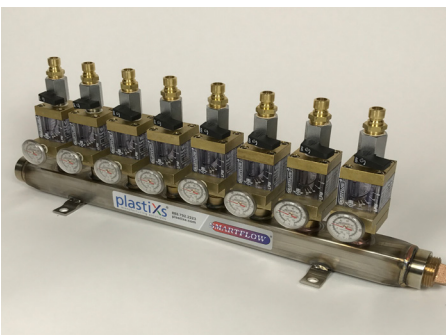

Custom Stainless Steel Manifold Assembly with 180° Ports Installed with Full Port Ball Valves for Welding Gases in an Automotive Frame Assembly Plant

Custom Xtreme HiTemp Stainless Steel Manifold Assembly with End Port Connection and Staggered Valves with Special Center-to-Center Dimensions

Custom Compact LinkedXValve Stainless Steel Manifold Assembly with Flowmeters and LinkedXValve Lever that Controls both Supply and Return Valves Simultaneously

Stainless Steel Manifold Assembly with Flowmeters with Temperature Gauges, Mini Ball Valves, and Quick Connect Plugs

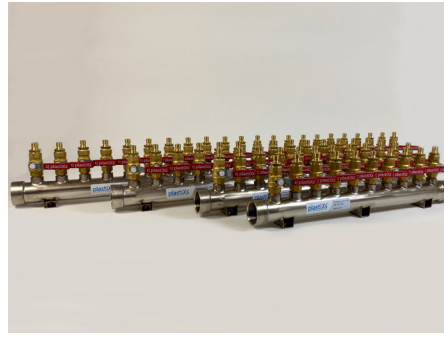

Stainless Steel Manifold Assembly with Flowmeters and Full Port Brass Ball Valves and Special Mounting Brackets

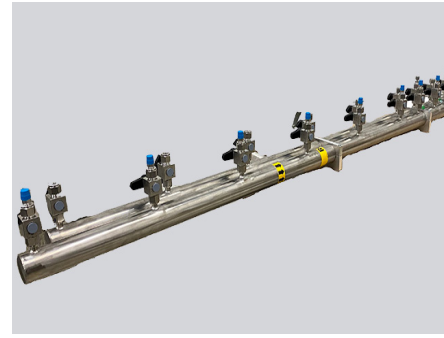

STAINLESS STEEL MANIFOLD ASSEMBLIES

Xtreme HiTemp Stainless Steel Oil Manifold Assemblies with End Port Connections, all Fitted with Special Valves for Hot Oil

1 1/2" Special Compact Stainless Steel Manifold Assemblies with Full Port Brass Ball Valves and a Unique Pre-Threaded Mounting System

Large Custom Stainless Steel Manifold Assembly for Cooling Drive on Semiconductor Equipment

Custom Compact Stainless Steel Manifold Assembly with Flowmeters and Flow Regulators for Cooling Power Supplies

Custom Stainless Steel Manifold Assembly with Mini Ball Valves, 90° Fittings, and Digital Flow Switches. Electropolished.

Custom Stainless Steel Manifold Assembly with Flow Regulators, Electronic Flowmeters, Pressure Switches and Solenoids for the Semiconductor Industry

Custom Stainless Steel Manifold Assembly with Flow Regulators, Flowmeters, and Full Port Ball Valves for an Electronics Cooling Application

Compact Stainless Steel Manifold Assembly with Flowmeters, Mini Ball Valves, and Brass Fittings for Injection Molding
