

Morris Gripper™ Couplers

The GRIPPER was devised as a quick coupler for dry, bulk transport, tank tubing. This unique coupling just slides onto the tubing or wraps around it and is tightened by hand in seconds, but it provides better support than rubber hose and band clamps. The GRIPPER's positive-sealing gum gaskets allow for tube and pipe variations. And, because it's made of 100% stainless steel, it will not corrode due to harsh weather or road conditions. Silicone gaskets that comply with applicable FDA requirements are available upon request.

Single Wingnut Coupler
