

Plastixs Named SMARTFLOW Distributor of the Year for 20th Consecutive Year

Plastixs has once again been named the SMARTFLOW 2022 Distributor of the Year, an honor that has been bestowed on the company every year for an astonishing 20-year run. The award, which recognizes Plastixs for exceptional service and sales of SMARTFLOW products, is presented annually by Burger & Brown Engineering, the manufacturer of SMARTFLOW.

Plastixs President and CEO Mickey Blyskal credited his team for their hard work and dedication. “The commitment and expertise of the team I work with is truly inspiring and we are very proud to be recognized for the work we do in helping our customers succeed,” Blyskal said.

Suite of SMARTFLOW Products for Solving Problems & Driving Productivity

Plastixs provides injection molding customers with a wide range of [SMARTFLOW products](#), including water manifolds, flow regulators, flowmeters, mold temperature regulators, and swap valves. Plastixs also provides [custom-built manifold assemblies](#) using the highest quality components on the market – including SMARTFLOW products – to ensure precision and consistent quality. SMARTFLOW products are especially useful for reducing turbulence, scale build-up, and cooling obstructions and improve viscosity, heat balancing, mold cooling, and cycle time.

“At Plastixs, our strength is working with customers to identify how great products – like those made by Burger & Brown Engineering – can be used to solve problems and increase productivity in injection molding, extrusion, blow molding, and tool making,” Blyskal said.

Hands-On Customer Service for Customer Success

With 25 years of industry experience, the Plastixs team has built a solid reputation for customer service and product assistance, collaborating closely to understand customer needs, provide custom solutions, and eliminate production obstacles. A hands-on customer service approach, lets Plastixs team members help customers reduce downtime, defects and other risks to their profitability.
