

TECHNICAL DATA SHEET

Zero Film Mold Cleaner Bulk/Liquid

45301B, 45305B, 45355B

Product Description

Zero Film is a single-purpose mold cleaner that is recommended for the final cleaning step on highly polished or A-level mirror finished molds. This formulation includes Acetone as its primary ingredient, and is ideal to use when a strong mold cleaner is needed in shops looking to remove metal polishing compounds or other mold making contaminants. Zero Film is a low-VOC mold cleaner formulation. Zero Film Mold Cleaner evaporates quickly and is NOT for use on painted surfaces.

Applications

Mold Cleaner

Unit Package Description

1, 5 and 55-gallon containers

Generic Description

Mold Cleaner

Approx. Net Weight Fill per Gal.

7 pounds

Net Weight Fill

1 - 55 gallons

Appearance

Colorless Liquid

Odor

Floral, sweet, acetone

Flash Point F

Negative 4 degrees

Flash Point C

Negative 20 degrees

Base Type

Acetone

Evaporation Rate

Fast

HMIS Rating

1, 3, 0, X

DOT Proper Shipping Name

UN1090, Proper Shipping Name - Acetone, Hazard Class - 3, Packing Group - II

Removal

Will Evaporate Completely

Units Per Case

1

Case Weight (lbs)

Various

Working Temperature F

32 to 300 degrees

Working Temperature C

0 to 149 degrees

Specific Gravity

0.796
